## Water Conservation

There are several new products on the market that may help reduce your current watering costs. Greenway Irrigation is pleased to offer the new Solar Sync Sensor. This revolutionary product automatically adjusts your irrigation system based on current weather conditions resulting in significant cost savings and conservation. The compact sensor is designed to continually measure rain fall and temperature for optimal performance. The environmentally sensitive Solar Sync is easily installed on Hunter Industries controllers and can mean an additional **30% savings on your water bill.**

In addition to the Solar Sync, Greenway has new U-Nozzles and Rotating Nozzles available for spray zones. Due to better uniformity on the spray patterns, the new nozzles can water an area up to **30% more efficiently.**

For customers with existing irrigation systems Greenway recommends a separate water meter. Having a separate meter for your irrigation eliminates MSD charges for irrigation system use and can save **up to 50% on your water bill.**

## Customer Satisfaction

*“I have worked with Kurt Dotson & Greenway Irrigation on several occasions. Not only have they worked on my sprinkler system, they also handle all of my outdoor Christmas decorating needs (including hanging lights from 20 foot trees) and my invisible dog fence problems. My phone calls are returned immediately. Greenway’s work is top rate, and their billing is extremely reasonable. I would recommend Kurt and his team to anyone with outdoor needs. He is honest and I trust him completely with my home.”*

~ Cynthia Maddox  
Prospect, KY

*“We presented Greenway Irrigation with a very challenging project that involved converting an existing architectural feature into a functioning fountain for a courtyard garden. Despite the challenges presented, they executed this project with diligence, resourcefulness and with the attention to detail that made the finished product everything we envisioned. We are thrilled to be enjoying our beautiful new fountain every day!”*

~Don Wenzel  
Prospect, KY

*“Clinton Korfhage Landscaping has worked with Greenway Irrigation on numerous landscaping projects. Their knowledge and expertise is why we will continue to use Greenway for future projects.”*
